TUCA DEL SALBAGUARDIA (SALBAGUARDIA PEAK)

2 hours and 30 min.

2,738 m. high

Bordering peak, 2,738 m. high, of easy but spectacular ascent. Follow the same route as in the *Portillón de Benàs* (consult the *Portillón de Benàs* excursion). This peak is on the West of the *Portillón*. From the same opening, departs a track to the left. Take it and go up zigzagging by the South slope of the peak to get to the top after 2 hours and a half (departing from the *Pllan d'Están*). The track is in very good condition but is quite "aerial" (not suitable for anyone suffering from vertigo). The views are, again, gorgeous.
